Year 5 Term 2 Homework

For this term's Community Curriculum homework we would like you to design and make a times table game:

1. Design a times table game
2. Write instructions on how to play the game
3. Create/make the game
4. Teach someone at home how to play the game – video/picture

Other things to consider:

- Is your game going to be self-checking or are there going to be answers?
- What equipment do you need to play the game?
- How do you win the game?
- What times table is the focus of your game?
